PROFESSIONAL EXPERIENCE

Glen Eagle Golf Course — Syracuse, UT
Pro Shop Attendant, Course Management — February 2025-October 2025

- Designed and managed the implementation of four golf leagues, accurately inputting weekly results and statistical data into software to streamline operations and enhance player experience.
- Adapted to a fast-paced work environment by analyzing trends and patterns to effectively market and promote products, increasing customer engagement and sales opportunities.
- Planned and executed over 20 tournaments and events, generating revenue exceeding $20,000 for a single event and contributing significantly to overall business growth.
- Built and maintained strong relationships with a diverse clientele, enhancing communication skills and fostering a welcoming environment for all participants.

Utah State University Athletics — Logan, UT
Media Relations Student Assistant, Media Relations — August 2022 – May 2023

- Attended and supported all Utah State athletic events, ensuring accurate scorekeeping and stat tracking to enhance media coverage and team analysis.
- Maintained comprehensive records of player and coach performance data, supporting historical tracking and strategic decision-making for athletic programs.
- Managed the creation and organization of official media guides, compiling player bios, photos, and statistical data to support team promotion and media relations.
- Delivered real-time game updates and post-game highlights on social media platforms, increasing fan engagement and online reach across multiple channels.
- Collaborated with athletic communications staff, ensuring timely and accurate distribution of game information to media, coaches, and fans.

PROJECTS/ANALYSIS

College Basketball Performance Analysis: Drivers of Team Success
Creator

- Identified key factors influencing team wins using regression analysis, highlighting the impact of offensive/defensive efficiency, pace, and conference strength
- Built predictive models explaining ~87% of variation in team performance and evaluated how conference affiliation shifts expected outcomes
- Communicated insights through visualizations to help non-technical audiences understand performance drivers and rankings
